

EXPERIENCE IN THE SCHOOL AS A LEADER

“Look at the past with gratitude, present with passion and future with hope”.

It’s my pleasure to share my experience in this school as a leader. In the past when I joined this institution in the year 2021, I felt that is a mesmerizing moment for me. It’s truly a great thing to be the Josephite family for the past one year. There are many encouraging events in this school. Our school never steps back. A seed cannot nurture itself. It needs fertile soil and of water. In my case I was the seed, this school was the soil and teachers were the caring farmers. A;; the teachers will deserve the highest salutations that anyone can bestow.
