

INDIA

Fighting for this, fighting for that, but
never knew what we had,
looking here and there but nothing was
present but for, then came up a group
saying fear not we are here!

Then the group started chanting the
stories of kings and patriot who tried to
make the independence fair!

This is how the subject Social was formed,
during the year after winning the
independence the Indian were like
Yay,Yay,Yay, we got inspired by that and
started telling

Bharath-Mahta ki jai...jai...jai.
