

GO GREEN

Let us all embrace the go green initiative and keep our mother earth clean. You probably are mean if you do not go green. The first step to make a difference in the society should start with embracing the go green initiative. Everything around is like two-way traffic. Similarly, you hurt the earth, it hurts you back. Thus, go green. Go green campaigns are widely used to expose environmental issues to the public.

Thought about go green:

“Imagine a fish
Without water.
Can it survive?
Now imagine
A world without
Green can people survive?”
